

QUALITY CERTIFICATE NBR FDA HOSE

We hereby confirm that our above-mentioned food quality hoses fully comply with the European regulation 1935/2004 and 2023/2006 on materials and articles intended to come into contact with food. Furthermore, they must be used according their respective BfR or FDA approval category, which are mentioned in our catalogue.

The European directive 10/2011 relates to plastic material and articles, specifically excluding rubber materials and articles.

We can also confirm that we do not use any phthalates or bisphenol A for the production of our hoses.
